BX ADA 200

Introduction

Form: white tiny particles
Bulk density: 0.86g/cm
Volatile: <0.5%
PTFE content: about 43%

Product Information

BX ADA 200 is a flame retardant and anti-drip additive with excellent processing performance and excellent surface performance, and can increase the melt strength of the polymer at the same time.

Product Features

1. Does not contain chlorine element.
2. Does not contain inorganic separators.
3. Good processing fluidity and excellent dispersion effect.
4. No precipitation and no silk in the post-injection molding of the product.

Dosage

PC, PA flame retardant system: 0.25—0.3%
Alloys such as PC/ABS: 0.35-0.4%

Package

In a ventilated and dry environment, the shelf life is two years. Net weight 25kg/bag, lined with PP film.
